

Excellence | Integrity | Compassion

Dr. Carl Sturges, Headmaster

Dear Parker Families,

As we near the end of spring break and look forward to the resumption of student learning, we are gaining a clearer picture of the Coronavirus. As we expected, cases are increasing throughout the state and have now officially reached our island. We are hopeful the steps we've taken to slow the further spread of the virus will help keep you and your families safe and healthy.

Given all that must be done in order for your children to begin their lessons with the highest possible efficacy, we are making the decision to extend spring break for students by one week. Faculty will use this time to plan, coordinate, and implement the various resources and activities that will be vital to a quality distance learning program. We appreciate your patience and understanding as we take the time to ensure the most educationally appropriate experience for your child.

Your child's division head and I will be in touch over the coming days to provide updates and important information. Please rest assured that there is nothing else you need to do at this time to prepare.

Please reach out to any of us with questions and know that we are available to assist in any way we can.

Sincerely,

Carl Sturges
